

FOLLOW OUR GOOD NAME!

Welcome to the SCC GmbH team! We are one of Europe's biggest consultancy companies in the regulation sphere, a respected partner of the chemical industry, and, for around 130 experts from different countries, a professional home. Our passion: managing approval procedures for agrochemicals, pesticides, biocides, etc. Our goal: to grow even further. In an international client environment. In the personal, open working culture of a family business that is focused on caring for its team. Located at the heart of the Rhine-Nahe region, alongside nature, but also right next to the vibrant Rhine-Main area. Expand our scientific expertise as

SENIOR REGULATORY AFFAIRS MANAGER - TOXICOLOGY (M/F/D) IN BIOCIDES

BAD KREUZNACH

WHAT YOU CAN EXPECT

- Your path will lead you into a currently 17-strong team, and straight into the middle of our enormous variety of projects.
- From the very beginning, we will hand you responsibility for concrete approval projects as well as for leading the colleagues involved and taking care of our international clients.
- Your mission: planning and coordinating the creation of dossiers for Europe-wide approval of chemical agents and biocide products with your colleagues – in close dialogue with the industry, authorities and research institutions.
- Your focus: to obtain approvals for our clients' active substances and products

WHAT WE OFFER:

- Opportunities for personal development
- Intensive on-the-job training and flexible working hours
- An attractive salary with profit-sharing, bonuses and benefits (company pension plan, food allowance, etc.)
- A very good working atmosphere in a team supported by corporate events and socialising outside of work

WHAT YOU OFFER

- Science degree in toxicology/ food chemistry
- At least 5 years' experience including leadership responsibility in Toxicology & Human Health Risk Assessments and in the sphere of regulation (with a focus on biocides)
- Experience with IT, preferably with knowledge of specialist software such as IUCLID
- Strong communication and presentation skills in German and English
- A talent for organisation, goal orientation, resistance to stress and scheduling awareness

Do you thrive on challenging projects in an interdisciplinary team of ambitious professionals? Then apply online via the link below!
